

FCC Commissioners
The Federal Communications Commission RE: Docket 04-435
445 12th Street, SW
Washington, DC 20554

Dear FCC Commissioners ,

NO, NO, NO! I fly all the time. I am top level frequent flyer with US Airways (Chairmans Preferred) and United (1 K), and Silver Elite with Northwest Air.

I am writing to voice my concerns about the FCC's proposal to relax the restrictions on the use of cell phones on airplanes in flight.

This is the worst idea I can remember in my 51 years of life. People can wait a few minutes or hours to scream into their phone. Planes are a flying enclosed tube. In emergency or case of terriorst attact, I will use my phone anyway.

There is no hard evidence that cell phone use doesn't interfere with navigational instruments. The introduction of cell phone use in the cabin will not only increase tension among passengers, it will compromise flight attendants' ability to maintain order in an emergency. Cell phone use could also enable terrorists to coordinate a plan of action more effectively.

Please leave the current rules in effect.

Sincerely,

Mark Lynch
